The Cerebra Legal

Entitlements & Problem-solving (LEaP) Project at the School of Law is an innovative problem-solving project that helps families of children with brain conditions cope with the legal barriers they face.

The Conference will provide brief updates on some of our past and present research projects including the pending programme concerning the prevalence and impact of FII (Fabricated or Induced Illness) allegations.

Each session will commence with an overview of the research and be followed by discussion

Booking details: to reserve a place please email Dr Ana Laura Aiello at A.L.Aiello@leeds.ac.uk.

Please state if you wish to attend on-line or in person: places are free but limited so please contact as soon as possible.
